

Campus ministries make the difference. THE COLLEGE YEARS are an important time when young adults explore spirituality and vocation. That's why university chaplains are vital parts of faith formation. The Episcopal Church Foundation has an array of tools to help campus ministries develop strong leadership and raise funds to strengthen their mission. ECF has partnered with campus ministries for more than 10 years, helping them improve annual giving efforts, raise capital funds, and envision endowment and planned giving programs. *We know the Episcopal Church. We know fundraising. How can we help you realize your mission and ministry?*

building leadership growing financial capacity forging partnerships

THE EPISCOPAL CHURCH FOUNDATION (ECF) is uniquely experienced in helping Episcopal campus ministries strengthen their leadership and raise the funds they need to achieve their goals. Our services include:

Capital Campaigns

We understand the needs of Episcopal campus ministries. Our discernment process fosters the involvement and commitment of all parties to build a compelling case. The feasibility study recognizes different donor bases, and the gifting phase will be effectively managed to help achieve success and build a firm foundation for the future. By partnering with ECF, chaplaincies empower current leadership as well as identify and raise up the next generation of leaders.

Planned Giving

We work with and support your leadership to help you establish or enhance your planned giving program to ensure resources will be available for vital programs in the future. We also help your donors create

planned gifts, including life income gifts, and we can show you how to create a legacy society to recognize those important gifts.

Endowment Management Services

We work with your leadership to vision, administer, manage, and invest endowment funds, helping to secure a continued capacity to do important work. We will share sample policy and structure documents, as well as best practices for schools and parishes. We currently partner with State Street Global Advisors, one of the largest managers of charitable assets in the world, and can provide a full range of investment options in all major asset classes and across the risk/return spectrum.

Annual Giving

We can guide you to the most effective ways to tell your story, motivate your donor base,

and develop successful programs. Whether you need a development audit, a review of your program, or are just starting a fund raising program, we can help you create a program that will maximize your potential.

Episcopal Academy

We can train, educate, and reinvigorate your staff and volunteers in our customized leadership and financial resource development workshops in the areas of leadership, capital campaigns, planned giving, endowment management and annual giving.

Our mission is to help you strengthen your leadership and financial capabilities to pursue your mission.

Please call us and let us know how we can help.
